SAFETY DATA SHEET

1 - IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

Identification of the substance or preparation:
Name: CIRE LIQUIDE LOUIS XIII INCOLORE.
Product code: 3014IC.

Company/undertaking identification:
Registered company name: AVEL.
Address: 16320 MAGNAC LAVALETTE.FRANCE.
Telephone: 05.45.64.74.74. Fax: 05.45.64.77.36. Telex: avel@avel.com
Emergency telephone: +33 (0)1 45 42 59 59.

2 - COMPOSITION/INFORMATION ON INGREDIENTS

Full text of risk phrases appearing in section 2: see section 16.

Hazardous substances present on their own:

INDEX | CAS | EC | Name | Symb. | R: | %
--- | --- | --- | --- | --- | --- | ---
650-002-00-6 | 8006-64-2 | 232-350-7 | TURPENTINE, OIL | Xn N | 10 | 20/21/22 36/38 43 51/53 65 25 <= x % < 50

Other substances representing a hazard:

INDEX | CAS | EC | Name | Symb. | R: | %
--- | --- | --- | --- | --- | --- | ---
AVSO1202S | 64742-48-9 | 265-150-3 | NAPHTHE LOURD(PETROLE), HYDROTRAITE | Xn | 10 | 65 66 25 <= x % < 50

Substances present at a concentration below the minimum danger threshold:

INDEX | CAS | EC | Name | Symb. | R: | %
--- | --- | --- | --- | --- | --- | ---
601-009-00-8 | 111-65-9 | 203-892-1 | OCTANE [AND ISOMERS] | Xn N F | 11 38 50/53 65 67 0 <= x % < 2.5

Other substances with occupational exposure limits:

No known substance in this category present.

3 - IDENTIFICATION OF HAZARDS

This product is classed: Flammable.
Possibility of irritation to the eyes and skin.
Possibility of skin sensitisation. The preparation may also irritate the skin and prolonged contact may aggravate this effect.
Possibility of noxious effects with symptoms of slight poisoning by inhalation, contact with the skin and swallowing.
Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

Preparation classification:

Harmful. Dangerous for the environment. Flammable.

R 51/53 Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
R 43 May cause sensitization by skin contact.
R 36/38 Irritating to eyes and skin.
R 20/21/22 Harmful by inhalation, in contact with skin and if swallowed.
R 10 Flammable.
4 - FIRST AID MEASURES

As a general rule, in case of doubt or if symptoms persist, always call a doctor.

NEVER induce swallowing in an unconscious person.

In the event of exposure by inhalation:
If a large quantity is inhaled, move the patient into the fresh air and keep him/her warm and still.
If breathing is irregular or has stopped, effect mouth-to-mouth resuscitation and call a doctor.
Do not give the patient anything orally.

In the event of splashes or contact with eyes:
Wash thoroughly with soft, clean water for 15 minutes holding the eyelids open.
Refer the patient to an ophthalmologist, in particular if there is any redness, pain or visual impairment.

In the event of splashes or contact with skin:
Remove contaminated clothing and wash the skin thoroughly with soap and water or a recognised cleaner.
DO NOT use solvents or thinners.
If the contaminated area is widespread and/or there is damage to the skin, a doctor must be consulted or the patient transferred to hospital.

In the event of swallowing:
In the event of swallowing, if the quantity is small (no more than one mouthful), rinse the mouth with water, administer activated medical charcoal and consult a doctor.
Keep still. DO NOT induce vomiting.
Consult a doctor and show him the label.
Call a doctor immediately and show him the label.

5 - FIRE-FIGHTING MEASURES

Chemical powders, carbon dioxide and other extinguishing gas are suitable for small fires.

Suitable extinguishing media:
Carbon dioxide, chemical powders, foams, and other extinguishing gases.
In the event of fire, use specifically suitable extinguishing agents. Never use water.

Extinguishing media which must not be used for safety reasons:
Water is not generally recommended since it can be ineffective; however, it can be used successfully to cool containers exposed to the fire and to disperse fumes.
A fire will often produce a thick black smoke. Exposure to decomposition products may be hazardous to health.
Do not breathe in smoke.
Prevent the effluent of fire-fighting measures from entering drains or waterways.

Special protective equipment for fire-fighters:
Fire-fighting personnel are to be equipped with autonomous insulating breathing apparatus.

6 - ACCIDENTAL RELEASE MEASURES

Personal precautions:
On account of the organic solvents contained in the preparation, eliminate sources of ignition and ventilate the premises.
Avoid inhaling the vapors.
Avoid any contact with the skin and eyes.
Consult the safety measures listed under headings 7 and 8.

Environmental precautions:
Contain and control the leaks or spills with non-combustible absorbent materials such as sand, earth, vermiculite, diatom earth in drums for waste disposal.
Prevent any material from entering drains or waterways.
Use drums to dispose of waste recovered in accordance with applicable regulations (see heading 13).
If the product contaminates waterways, rivers or drains, alert the relevant authorities in accordance with statutory procedures.

Methods for cleaning up:
Clean preferably with a detergent, do not use solvents.
7 - HANDLING AND STORAGE
The regulations relating to storage premises apply to workshops where the product is handled.
Anyone with a history of skin sensitisation must on no account handle such products

Handling:
Handle in well-ventilated areas.
The vapors are denser than air. They can spread along the ground and form explosive mixtures with air
Prevent the formation of flammable or explosive concentrations in air and avoid vapor concentrations higher than the occupational exposure limits.

Fire prevention:
Prevent the accumulation of electrostatic charges with connections to earth
The preparation may become electrostatically charged; always place on the ground during transfer. Wear antistatic shoes and clothes and make floors of conductive materials.
Use the product in premises where there are no naked flames or other sources of ignition and have protected electrical equipment
Keep packages tightly closed and away from sources of heat, sparks and naked flames.
Do not use tools which may produce sparks. Do not smoke.
Prevent access by unauthorised personnel.

Recommended equipment and procedures:
For personal safety, see §8.
Observe precautions stated on label and also industrial safety regulations
Packages which have been opened must be reclosed carefully and stored in an upright position
Avoid inhaling vapors.
Avoid contact of product with the skin and eyes

Prohibited equipment and procedures:
Smoking, eating and drinking are prohibited in premises where the preparation is used
Never open the packages under pressure

Storage:
Keep the container tightly closed in a dry, well-ventilated place
Keep away from food and drink, including those for animals.
Keep away from all sources of ignition - do not smoke.
Keep well away from all sources of ignition, heat and direct sunlight
The floor must be impermeable and form a collecting basin so that, in the event of an accidental spillage, the liquid cannot spread beyond this area.

8 - EXPOSURE CONTROLS/PERSONAL PROTECTION

Use personal protection equipment as per Directive 89/686/EEC.
Anyone with a history of skin sensitisation must on no account handle such products.

Technical measures:
Ensure adequate ventilation, if possible with extractor fans at work posts and appropriate general extraction.
If this ventilation is insufficient to maintain the concentration of solvent vapors below the exposure limits, wear breathing apparatus

Exposure limit values per INRS ND 2098-174-99 and ND 2114-176-99:

Respiratory protection:
With this preparation, avoid in particular any inhalation of vapors.

Hand protection:
Protective creams may be used for exposed skin, but they should not be applied after contact with the product.
Due to the solvents present, it is recommended that neoprene rubber or nitrile rubber gloves be worn.

Eye and face protection:
Avoid contact with eyes.
Wear safety goggles.
Provide eye washes in workshops where the product is constantly handled.

Skin protection:
For further information, see § 11 of S.D.S. - Toxicological information.

9 - PHYSICAL AND CHEMICAL PROPERTIES
Density: < 1
Acid/base character of preparation: not relevant.
Solubility of preparation in water: Insoluble.
Vapour tension at 50°C of volatile constituents: Below 110 kPa (1.10 bar).
Physical state: Viscous liquid
Flash point interval: 23°C, < Flash point: <= 55°C.
The pH is impossible to measure or its value is not relevant.
Self-ignition temperature: not specified.
Decomposition temperature: not specified.
Melting temperature interval: not specified.
Average distillation temperature of solvents contained: not specified.

10 - STABILITY AND REACTIVITY
When exposed to high temperatures, the preparation may release dangerous decomposition products such as carbon monoxide and dioxide, smoke and nitrogen oxide.

11 - TOXICOLOGICAL INFORMATION
No data is available regarding the preparation itself.
Exposure to vapors from solvents contained in the preparation beyond the exposure limits stated may produce effects harmful to health, such as:
Irritation of mucous membrane and respiratory system, kidneys, liver and central nervous system.
Symptoms produced will include headaches, numbness, dizziness, fatigue, muscular asthenia and, in extreme cases, loss of consciousness.
Prolonged or repeated contact with the preparation may strip the skin of its natural oil and thus cause non-allergic dermatitis on contact and absorption through the epidermis.
Splashes in the eyes may cause irritation and reversible damage.
It is generally agreed that substances contained are likely to cause the appearance of major lesions which persist for at least twenty-four hours after application to the eye of an animal and are likely to cause significant irritation which lasts for at least twenty-four hours after application to the healthy, unbroken skin of an animal for a period of up to 4 hours. It is generally agreed that substances contained are likely to cause, among certain predisposed subjects, a sensitisation reaction by cutaneous route.

12 - ECOLOGICAL INFORMATION
No ecological data on the product itself is available. The product must not be allowed to run into drains or waterways.

Ecotoxicity:
Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

13 - DISPOSAL CONSIDERATIONS
Do not pour into drains or waterways.

Waste:
Recycle or dispose of waste in compliance with current legislations, preferably via a certified collector or company. Do not contaminate the ground or water with waste, do not dispose of waste into the environment.

Soiled packaging:
Empty recipient completely. Keep label(s) on recipient. Give to a certified disposal contractor.

14 - TRANSPORT INFORMATION
Transport product in compliance with provisions of the ADR for road, RID for rail, IMDG for sea and ICAO/IATA for air transport.

UN1993 = FLAMMABLE LIQUID, N.O.S.

15 - STATUTORY INFORMATION
This preparation was classified in compliance with the directive known as <All preparations> 1999/45/EC and its adaptations. In addition directive 2004/73/EC with the 29° adaptation of directive 67/548/EEC (Hazardous substances) have been taken into account.

Preparation classification:
Harmful. Dangerous for the environment. Flammable.

Contains:
650-002-00-6 TURPENTINE, OIL
Particular hazards associated with the preparation and safety recommendations:

R 51/53 Toxics to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
R 43 May cause sensitization by skin contact.
R 36/38 Irritating to eyes and skin.
R 20/21/22 Harmful by inhalation, in contact with skin and if swallowed.
R 10 Flammable.
S 2 Keep out of reach of children.
S 29 Do not empty into drains.
S 36/37 Wear suitable protective clothing and gloves.
S 46 If swallowed, seek medical advice immediately and show this container or label.
S 61 Avoid release to the environment. Refer to special instructions/Safety data sheets.
S 13 Keep away from food, drink and animal feedingstuffs.
S 24/25 Avoid contact with skin and eyes.
S 26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S 61 Avoid release to the environment. Refer to special instructions/Safety data sheets.
S 13 Keep away from food, drink and animal feedingstuffs.

Particular provisions:
Tactile warning of danger.

16 - OTHER INFORMATION
Since the user's working conditions are not known by us, the information supplied on this safety data sheet is based on our current level of knowledge and on national and community regulations.
The product must not be used for any purposes other than those specified under heading 1 without first obtaining written handling instructions.
It is at all times the responsibility of the user to take all necessary measures to comply with legal requirements and local regulations.
The information given on this safety data sheet must be regarded as a description of the safety requirements relating to our product and not a guarantee of its properties.

Full text of risk phrases appearing in section 2:
R 10 Flammable.
R 11 Highly flammable.
R 20/21/22 Harmful by inhalation, in contact with skin and if swallowed.
R 36/38 Irritating to eyes and skin.
R 38 Irritating to skin.
R 43 May cause sensitization by skin contact.
R 50/53 Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
R 51/53 Toxics to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
R 65 Harmful. may cause lung damage if swallowed.
R 66 Repeated exposure may cause skin dryness or cracking.
R 67 Vapours may cause drowsiness and dizziness.
